EXCEPTIONAL CARE.
EXTRAORDINARY LIVING.

Being a part of the Jaybird Senior Living family of communities means adhering to a very special set of values. One of these values is ensuring that our team members get to know each and every one of our residents not only in regards to health care, but also as a unique and vibrant person. Our goal is to make at least one resident dream come true each month in every one of our assisted living and memory care communities. These dreams can range from modest to elaborate based on the unique experiences and backstories of each individual resident.

Know a resident who has a dream? Let us know by emailing or calling the Life Enrichment Department.

Bird of the Month – Canary

Canaries are lovely, bright yellow songbirds from the Canary Islands off the coast of West Africa. These beautiful birds evolved from finches. They have an enchanting song, making them a popular pet. Wild canaries tend to have stripes or spots of black, brown, white, or other colors on their feathers, while domestic canaries are typically all yellow—a trait breeders cultivated. Their stunning yellow hue is so appreciated that this sunny color is known as canary yellow. Canaries are also known for their history of helping to keep coal miners safe. In the early 20th century,

they were taken into coal mines to detect leaks of poisonous gases like carbon monoxide. Canaries show signs of distress when the air becomes unsafe, giving miners a chance to escape. Interestingly, while both male and female canaries sing, the males sing more often and are known as the better singers.

How's the Weather?

April is known for its showers, wind, and sudden storms. In fact, it's often said that the only thing you can count on for April weather is its unpredictability. Some parts of the country might still have snow this month, while others, including top spring vacation destinations like Miami and Los Angeles, are more likely to have hot, sunny days.
